

Call for Workshop Papers and Demonstrations

Nineteenth International Conference on *Text, Speech and Dialogue*

TSD 2016

September 12–16, 2016, Brno, Czech Republic

TSD 2016 is organized by the Faculty of Informatics, Masaryk University, Brno, and the Faculty of Applied Sciences, University of West Bohemia, Pilsen. The conference is supported by International Speech Communication Association.

Venue: Brno, Czech Republic

Submission of CBBLR Workshop papers: The TSD 2016 conference will be accompanied by a one-day satellite workshop *Community-based Building of Language Resources*. The main topic of the workshop is directed at building new language resources, especially for languages with no or too little existing language resources.

Authors are now invited to submit the workshop papers within the 2nd call for papers via the Submission web form. All accepted CBBLR workshop papers will be published in a separate workshop proceedings with ISBN.

Submission of Demonstration Abstracts: Authors are invited to present actual projects, developed software and hardware or interesting material relevant to the topics of the conference. The authors of the demonstrations should provide the abstract not exceeding one page as plain text. The submission must be made using the online form available at the conference www pages. The accepted demonstrations will be presented during a special Demonstration Session (see the Demo Instructions at www.tsdconference.org). The demonstration abstracts will not appear in the Proceedings of TSD 2016, they will be published electronically at the conference website.

Format of the Conference: The conference program will include presentation of invited papers, oral presentations, and poster/demonstration sessions. Papers will be presented in plenary or topic oriented sessions. The conference will welcome **Hinrich Schütze**, University of Munich, Germany: *Embeddings! For which objects? For which objectives?*, **Ido Dagan**, Bar-Ilan University, Israel: *Natural Language Knowledge Graphs*, and **Elmar Nöth**, Friedrich-Alexander-Universität, Germany: *Remote Monitoring of Neurodegeneration through Speech*, as keynote speakers. Social events including a trip in the vicinity of Brno will allow for additional informal interactions.

TSD series evolved as a prime forum for interaction between researchers in both spoken and written language processing from all over the world. Proceedings of TSD form a book published by Springer-Verlag in their Lecture Notes in Artificial Intelligence (LNAI) series. TSD Proceedings are regularly indexed by Thomson Reuters Conference Proceedings Citation Index. LNAI series are listed in all major citation databases such as DBLP, SCOPUS, EI, INSPEC or COMPENDEX.

Topics: Topics of the conference will include (but are not limited to): *Corpora and Language Resources* (monolingual, multilingual, text and spoken corpora, large web corpora, disambiguation, specialized lexicons, dictionaries); *Speech Recognition* (multilingual, continuous, emotional speech, handicapped speaker, out-of-vocabulary words, alternative way of feature extraction, new models for acoustic and language modelling); *Tagging, Classification and Parsing of Text and Speech* (morphological and syntactic analysis, synthesis and disambiguation, multilingual processing, sentiment analysis, credibility analysis, automatic text labeling, summarization, authorship attribution); *Speech and Spoken Language Generation* (multilingual, high fidelity speech synthesis, computer singing); *Semantic Processing of Text and Speech* (information extraction, information retrieval, data mining, semantic web, knowledge representation, inference, ontologies, sense disambiguation, plagiarism detection); *Integrating Applications of Text and Speech Processing* (machine translation, natural language understanding, question-answering strategies, assistive technologies); *Automatic Dialogue Systems* (self-learning, multilingual, question-answering systems, dialogue strategies, prosody in dialogues); *Multimodal Techniques and Modelling* (video processing, facial animation, visual speech synthesis, user modelling, emotions and personality modelling);
